

# COMMERCIAL ANTI FATIGUE MATTING

The Newest Innovation of **Commercial Anti-Fatigue Matting** Featuring our Exclusive “**REBOUNCE**”, weaving system that provides comfort and reduces fatigue to lower joints and muscles.

∞ **Coir fiber** is the strongest, longest wearing, most durable, of all the **natural fibers**, and has been utilized by man for centuries(Sailors). Now Coir Fibre is available as stress relieving matt for all floor types and applications.

## COIR FIBERS ARE NATURALLY

 **Rebound System** including Our Exclusive “**recoil weaving**” method provides extra firm tight spring action that reduces strain and discomfort to the muscles and joints, adding extra bounce when walking on a hard concrete surface.

∞ **Resilient**, is able to recover to their original state and resist crushing. Recovered from the coconut waste which is a Naturally Sustainable Resource.

∞ **Antibacterial** with **HIGH WATER RETENTION**, which prevents the formation of Mold or Mildew.

∞ Our Exclusive open weave reversible pattern creates a flow through **Self- Cleaning** System, which reduces the need to and the cleaning time.

 The Natural **Durability** of the Coir combined with Our Unique Herringbone Reversible design increases the life span of the product.

*“Reduces strain and discomfort on joints and ensures a healthy living environment.”  
Made from coir fiber which is harvested from the Coconut tree, a natural renewable resource.*
